

## Exporting Slideshow from Pixie

1. Create your project and save it to your Desktop or Documents folder.
2. Click on the 4 squares to view all your pages.

3. Select your transition option and timing.

4. Select the screen icon to see your project with the sound and transitions.

5. Go back to your single view and go to File to Export. Select Web video. In the next window type a title for your project, select the Desktop folder and Save.

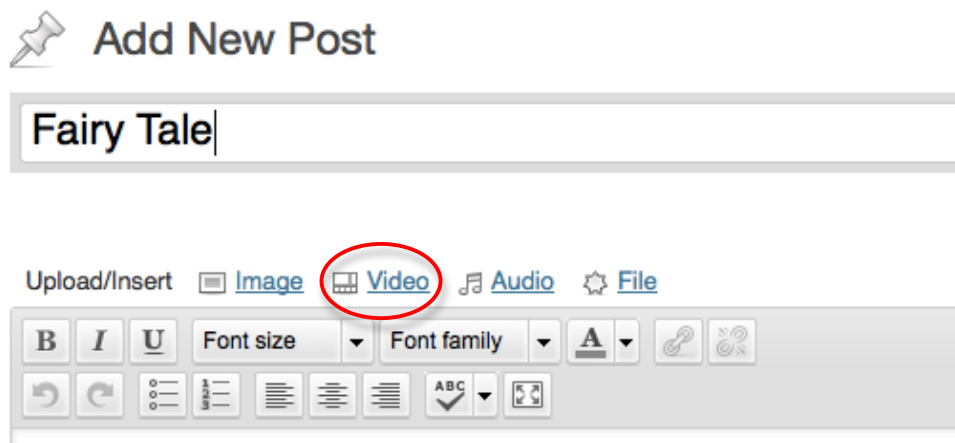

## Putting your Project on Kidblog

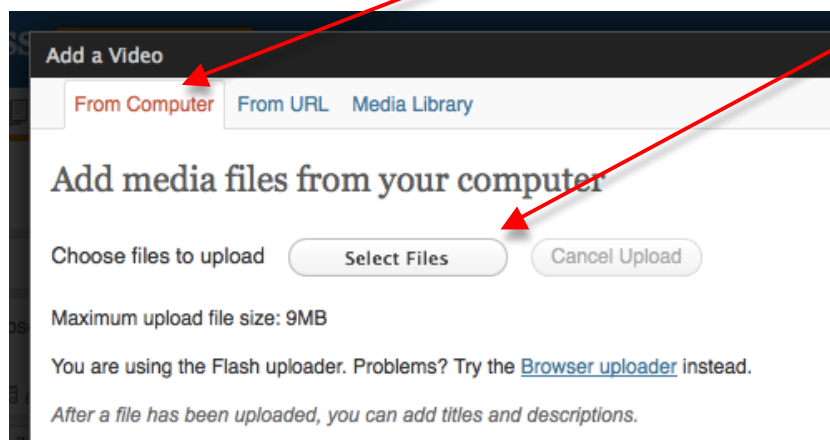

1. Log into your Kidblog, go to your blog and select New Post.

2. Title your Post, then select Video

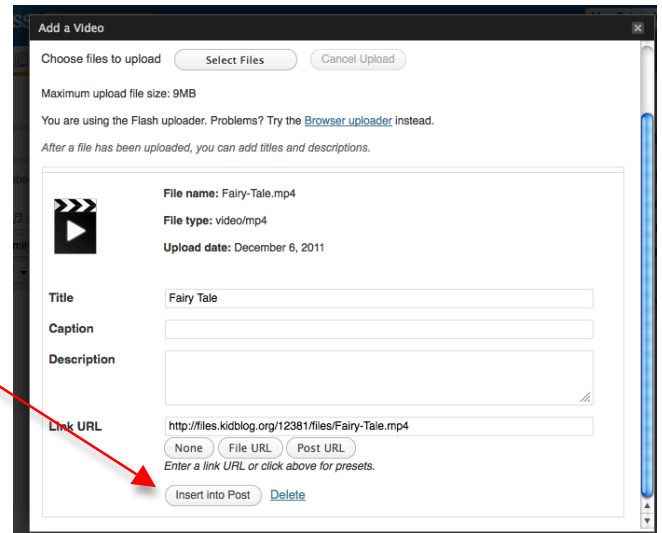

3. In the next window select **From Computer**, then Select Files.

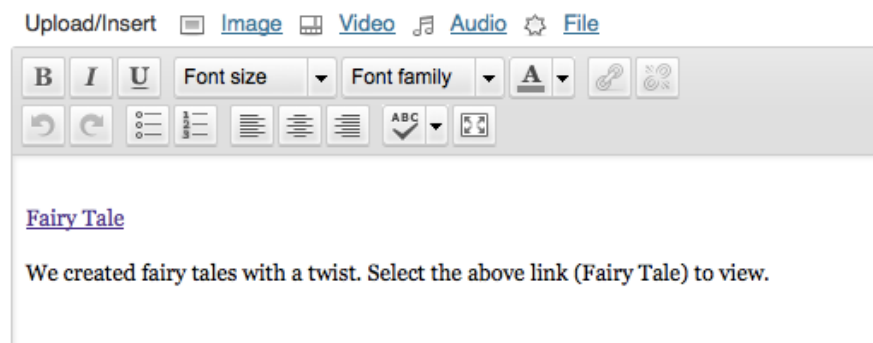

4. Click on Desktop on the left, then navigate to your Fairy Tale file. It will end in .MP4

5. Scroll down to the bottom of the next window and click on Insert into Post.

6. Return once and type:  
**We created fairy tales with a twist. Select the above link (Fairy Tale) to view.**

7. Have your post checked and then select Publish.
